MISSION STATEMENT

“Our mission is to empower all students to succeed in a changing world.” The Chrisman School District staff believes that **ALL** students can learn and achieve mastery of essential skills to succeed in a changing world. We believe our school's purpose is to challenge **ALL** students to high levels of academic performance, while fostering growth in social / emotional behaviors, abilities, and enhancing the development of each individual's unique potential in the transition from kindergarten to elementary school to junior high school to high school.

FORWARD

This handbook is provided to students and their families to acquaint them with the rules, regulations, procedures, and other relevant information necessary for the orderly functioning of the school. This handbook does not equate to an irrevocable contractual commitment to the student, but only reflects the current status of the rules and policies.

CHAIN OF COMMAND FOR SOLVING SCHOOL-RELATED PROBLEMS

When problems arise that are student and school related, parents are urged to use the following procedure:

1. Every effort should be made to find a solution with the student's teacher.
2. If no satisfactory solution is found, appeal is to the building principal.
3. If no satisfactory solution is found, appeal is to the superintendent.
4. If no satisfactory solution is found, appeal is to the Board of Education. School board members have power to take action only when the Board of Education is in session.

SCHOOL RECOGNITION

Chrisman Community Unit School District No. 6 is fully recognized by the Illinois State Board of Education.

SCHOOL STRUCTURE

Established by Illinois School laws, Chrisman Community Unit School District No. 6 is governed by a seven member board, whose non-paid members are elected to four year terms. The board meets the second Monday of each month to transact the business and to establish the policy for conducting the school. The district covers approximately 130 square miles surrounding and including the towns of Chrisman and Scotland. All school-age students within this territory shall attend Chrisman schools unless they choose to pay their own tuition and attend a public, private, or parochial school elsewhere.

CHRISMAN ELEMENTARY PTO

Parent Teacher Organizations help build a bridge between home and school. All parents are encouraged to become active members of the Chrisman Elementary PTO. A good working relationship between parents and school personnel is essential to a child's growth and educational progress.

PHILOSOPHY AND OBJECTIVES OF CHRISMAN ELEMENTARY

The district's schools realize the important role they play in the development of this state and nation. We recognize the responsibility of religious groups, fraternal clubs and civic organizations within the school community for the molding of character, increasing the strength of moral fiber, and the implanting of civic pride in our students. The first concern of the schools is to educate, to the full extent of their ability, each of our students to the full extent of his/her capacities to learn.

We attempt to meet the challenge of fostering wholesome development of virtues and character traits by providing to the best of our ability a well-rounded curricular and co-curricular program. The district's schools wish to establish rapport among parents, students, teachers, administrators, the school board, and the community at large.

Our schools recognize the importance of the influences parents, home life, and the elementary school have upon the students. The school, by diligent effort, hopes to assist its students in the development of a sound system of values.

We have an obligation to the citizens of the community to upgrade, whenever and wherever possible, the advantages a student may receive from attending our schools. We also believe that what is learned here is only a foundation upon which life-long learning experiences will be built.

It is our goal that graduates from this school district will be adequately prepared to successfully meet the challenges of life in the pursuit of college and career.

No pupil in the district is excluded from or segregated within any school based on color, race, nationality, sex, religious affiliation, or disability. The district does not discriminate on the basis of sex, nationality or disabilities in the provision of educational and extra-curricular programs, activities, services, and benefits.

Early dismissal times are 11:40am or 1:50pm.** On early dismissal days, students may not be in the building unsupervised after the busses leave. The school grounds are closed to the public after 10:00pm except during school activities.

CLOSING OF SCHOOL-EMERGENCIES

If school is closed because of inclement weather or other natural disaster, an announcement will be broadcast on WCIA Channel 3 in Champaign, Channel 2 in Terre Haute, and WICD Channel 15 in Champaign. The Alert Now system will also be used to contact parents. The decision to close school due to inclement weather will be made by 6:00am. Please do not call the principal or teachers about school closings. If the weather deteriorates once school is in session, the decision for an early dismissal will be made by 12:30pm.

ADMISSIONS

No child shall be permitted to enter kindergarten at the start of a school year unless the child is five (5) years old on or before September 1st of the year in which admission is sought. A birth certificate shall be presented to verify the child's age. A copy of the birth certificate shall be retained in the student's permanent record. Students shall not be permitted to enter kindergarten or fifth grade unless the superintendent or designee is provided with proof of immunizations from disease as required by law, or a legally sufficient statement is submitted objecting to inoculations.

ATTENDANCE

The Illinois School Code contains the following statement regarding attendance: "Whoever has custody or control of any child between the ages of seven and seventeen years, shall cause said child to attend school in the district in which they reside, during the entire time it is in session during the regular school term."

ABSENCES

Absences

Paragraph 1: No Call

Regular attendance is an extremely important element of student success. In the event of an absence, the student's parent or legal guardian is required to call the school (269-2022) before 8:10 a.m. to indicate the reason for the absence. Upon request of the parent or legal guardian, the reason for an absence will be kept confidential. If no call is received by 8:10 a.m., the absence will be unexcused.

Paragraph 2: Three Absences

After three (3) absences of half or full days per quarter, further absences will be unexcused unless a doctor's note is presented at the time the student returns to school. Doctors may fax notes to 269-3222. It is the parent or legal guardian's responsibility to follow up and make sure the fax is received by the school.

Paragraph 3: Extended Illness

A properly excused extended illness will count as one (1) day toward the three (3) days. After an absence of three (3) or more consecutive days, a doctor's note must be presented at the time of the

student's return for the absences to be excused. Late doctor's notes will not excuse the absences.

Paragraph 4: Extended Pre-arranged

Both the Office and the Teacher must be notified, individually in writing, of plans for an extended pre-arranged absence at least one week prior to the planned absence. This notification allows time for Principal approval of the pre-arranged absence and for homework assignments to be gathered and explained prior to the pre-arranged absence. Homework assigned for the missed days shall be due the day the student returns from the absence. After that date, grades on make-up work may be impacted. If notification is not made within this time frame, the absences will be unexcused.

This advance notice requirement will not apply to emergency situations such as a death in the family.

Three types of absences

Excused: If the student's absence is excused, the student shall make up missed work. The student shall be permitted the same number of days as he/she was absent to turn in the make-up work. For example: For an absence of three (3) days a student will have three (3) days to make up missed work. The day of return to school shall count as day number one (1) in this circumstance. Grades on make-up work may be impacted by further delay in making up the missed work.

Unexcused: An absence is unexcused if

1. No parent contact is made with the school by 8:10 explaining the student absence (see Paragraph 1).
2. After three (3) absences of half or full days per quarter, a doctor's note is not presented at the time the student returns to school from any further absences (see Paragraph 2).
3. A doctor's note is not presented upon return from an absence of three (3) or more consecutive days (see Paragraph 3).
4. Notification of an extended pre-arranged absence is not made to both the Mrs. Schluter (for approval) and to the Classroom Teacher (for homework) one week prior to the absence Paragraph 4).

Homework for absent students

Homework for absent students shall be placed on the bench in the front lobby by 2:00pm each day.

A.I.M.S.

After 5 unexcused absences or after a total number of absences equal to 5% or more of the past 180 school days with at least one of these absences being unexcused, the student's name shall be submitted to A.I.M.S. truancy program.

TRUANCY

A.I.M.S. is a program providing support services and resources to assist chronic truants in overcoming attendance problems and to help school districts with chronic truants. The A.I.M.S. program is funded by the Illinois State Board of Education and the services are provided by the Regional Office of Education.

TARDY POLICY

Students shall report on time to all scheduled classes. When a student arrives to class after the bell has rung, he or she shall report to the office for a tardy pass. If a student seeks entry to class late and lacks a tardy pass, the student shall be sent to the office.

The accumulation of three (3) tardies in a nine week grading period shall result in a detention.

Students who ride the school bus and are late will not be marked tardy. If a student arrives at school after 8:10am and before 9:00am, the student will be marked tardy. After 9:00 am students will be marked ½ day absent.

ILLINOIS PUBLIC SCHOOL RECOGNITION SYSTEM

The State Goals for Learning provide the underlying framework for defining and assessing student learning outcomes and evaluating the school's improvement efforts.

Components- Three components operate independently to determine a school's designation for recognition: (1) compliance with facilities, staffing, and program specifications as specified by statute and rules; (2) evidence that all students meet performance standards and are served by a

comprehensive school improvement plan; and (3) school results on the state assessment tests.

The first component of the designation reflects a school's compliance with the various specific provisions of the law and State Board of Education rules. The second component of the designation requires schools to provide evidence, over a period of time, of the extent to which students are learning and how well students are being served through a comprehensive school improvement system. The school must provide evidence that:

- learning outcomes are consistent with and as comprehensive as the State Goals of Learning;
- the achievement of outcomes is measured in a reliable and valid manner;
- appropriate performance levels (standards) are established;
- comprehensive results document what students know and are able to do;
- assessment information is interpreted according to local learning outcomes and standards of student performance;
- assessment results or other aspects of schooling meet the needs of all students in reaching specified outcomes.

Schools within a district must first meet the facilities, staffing and program criteria stated in the law and rules. If a school is found to be in noncompliance, the district will be given a specified length of time to correct any deficiencies.

Standards for the second component will be applied following the on-site quality review. A school will be evaluated according to specific performance and improvement criteria and assigned one of four possible classifications: Exceeds, Meets, Does Not Fully Meet, or Does Not Meet.

Standards for the third component will be applied when the school has an internal review. The state board uses the school's ISAT results from the previous year to apply this component of the designation. A school will receive an Exceeds, Meets (high, middle or low), or Does Not Meet classification for this part of the designation based on the performance of students in grades 3 and 4 for reading, mathematics, and of students in grade 4, for science. ISAT tests are administered during the month of March.

Each component will be rated independently and the resulting designation will contain three separate statements. For example, a school's designation might be Compliance-yes; State Assessment-Exceeds; Local Performance and Improvement-Meets. No school is eligible to receive recognition status without the presence of all three components; compliance, local performance and improvement, and school performance on the ISAT.

IN LOCO PARENTIS

The school code provides that "In the absence of parents, that all school certified personnel (teachers and administrators) stand in the relationship of parents and guardians to pupils at school and all athletic and extracurricular programs".

STUDENT APPEARANCE

Students are expected to present an appearance that does not disrupt the educational process or interfere with the maintenance of a positive teaching/learning climate. Dress and/or grooming which is not in accord with reasonable standards of health, safety and decency will be considered inappropriate. The Building Principal is the final authority for judging the appropriateness of a student's appearance.

The following are only samples of dress standards that relate to attire which are deemed inappropriate for school:

- 1) untied shoe string
- 2) chains on clothing
- 3) bandanas around head
- 4) hats in the building
- 5) see through tops or shirts or shirts showing undergarments
- 6) suggestive or derogatory slogans; improperly placed patches on clothing.
- 7) clothing advertising alcohol, tobacco products or drugs.
- 8) controversial symbols
- 9) short shorts
- 10) spaghetti strap tops
- 11) Flip Flop shoes
- 12) Outdoor shoes such as snow boots, etc.

The faculty and administration reserve the right to determine which slogans, patches, symbols or advertisements are appropriate at school.

GENERAL BUILDING CONDUCT

Students shall not arrive at school before 7:45 am. After 8:00, the East door will be locked. Students must then enter through the West front door. Classes begin at 8:10 am and students are dismissed at 3:00 pm each day. The following building rules shall apply:

TRANSPORTATION

The District shall provide a safe, efficient system of transportation for all students in the District. Transportation for special education students and non-public school students shall be provided in accordance with state law. Bus schedules and routes shall be determined by the Superintendent or his/her designee and shall be altered only with his/her approval and direction. In fixing the routes, every effort should be made to have the pickup and

discharge points as safe and convenient for students as possible. No school employee may transport students in school or private vehicles unless authorized by the administration and in compliance with legal requirements and liability coverage requirements. Students shall be transported to and from school sponsored activities only in vehicles authorized by the administration. A transportation fee may be set by the School Board to defray costs. Every vehicle regularly used for the transportation of students must pass a safety inspection test at 6 months or 10,000 miles whichever occurs first. The test shall be given at a testing lane certified by the Illinois Department of Transportation. School bus drivers shall undergo and pass rigorous physical examination before being employed and once each year during employment. Bus drivers shall remain in the bus at all times when children are on board. There are two exceptions to this rule: a) in the case of an emergency and the bus driver must leave to get help; b) if there is a supervisor, aide, chaperone or other appropriate adult on the bus.

TRANSPORTATION- SCHEDULING AND ROUTING

The Superintendent or his/her designee shall study the student population in order to provide the safest, shortest routes which will get all children to school in the most economical way. Routes shall be arranged in such a way to equalize as nearly as possible the length of routes and bus loads, and to provide for the full use of buses.

In the rural area, students shall meet the bus at the end of their lane. In the rural areas, stops shall be scheduled at the home of students. Stops at other locations for the convenience of the parents will be considered only if a bus can be so routed without adding additional time or mileage to the route and space is available.

Students are expected to ride his/her assigned bus to his/her designated destination unless the parents have made prior arrangements with the school and bus driver. The school must be notified through a note or parent phone call before 2 pm of any change.

BUS RIDER GUIDELINES

School bus riders, while in transit, are under the jurisdiction of the school bus driver unless the board of education designates another adult to supervise the riders. The following rules govern school bus riders:

1. Be on time at the designated school bus pick up point.
2. Stay off the road at all times while waiting for the bus.

CODE OF CONDUCT-INTERVENTION

All disciplinary responses shall be directed toward protecting the welfare of the school community and helping the student develop self-discipline. When determining the response for a specific act of misconduct, school personnel will consider the nature of the act, the student's previous school history, his/her age and maturation, mitigating circumstances, and the effect of his/her actions on the welfare of the school community.

INTERVENTION/DISCIPLINARY MEASURES

In addition to mandatory parent or legal guardian notification, the following intervention measures may include, but are not limited to:

- Training to enable staff, students, and families to identify early warning signs of aggression.
- Encouragement of all staff and other members of the school community to raise concerns about students who have demonstrated behaviors that put them at risk for engaging in aggressive behavior.
- Assembling a team of specialists trained in evaluating and addressing serious behavioral issues and referring concerns about a particular student's potential for aggression to that team.
- Programs that teach students alternative, socially appropriate behaviors.
- Placing families of potentially aggressive students in contact with community organizations that can teach them to reduce aggressive behaviors in their children.
- Referral of a child who has been identified as being at risk for aggressive behaviors for a special education evaluation, since this may be a sign that a child is disabled and therefore

eligible for special education and related services under the Individuals with Disabilities Education Act (IDEA).

- Adherence to all the federal/state guidelines governing students with disabilities. These policies/procedures are available at the principal and superintendent's office.

Disciplinary measures may include, but are not limited to:

- Notification of juvenile authorities whenever the conduct involves illegal drugs (controlled substances), look-alikes, alcohol, or weapons.
- Notification of parent(s) / guardian(s)
- Removal from classroom
- In-school suspension. The building principal or designee shall ensure that the student is properly supervised.
- Detention provided the student's parent(s) / guardian(s) have been notified. The student shall be supervised by a certified teacher, building principal or designee.

A student who is subject to suspension or expulsion may be eligible for a transfer to an alternative school program.

AGGRESSIVE BEHAVIOR

“NO BULLYING”

The school board shall, in consultation with its parent-teacher advisory committee and other community-based organizations, include provisions in the student discipline policy to address students who have demonstrated behaviors that put them at risk for aggressive behavior, including bullying. The provisions shall include procedures for notifying parents or legal guardians and early intervention procedures based upon available community-based and district resources.

Bullying behaviors are specifically prohibited and will not be tolerated. Bullying includes repeated aggressive, violent, angry, intimidating, and/or threatening verbal or physical behaviors that may be demonstrated through discipline problems, violent expressions in writings and/or drawings, gestures, weapon possession, gang affiliation and/or prejudicial attitudes. A person is being bullied when he/she is exposed, intentionally and repeatedly, to negative actions on the part of one or more other persons. Examples of bullying include, but are not limited to: threats, put-downs, name calling, teasing, ridiculing, taunting, slapping, pinching, shoving, pulling, poking, tripping, ostracizing, and isolating others. When such behaviors or characteristics are demonstrated, parents will be notified by the building administrator of potential consequences that range from an administrative conference to suspension or expulsion. In addition, parents will be made aware of interventions that may include information on early warning signs of aggressive behavior, referral to a building support team, student instruction in socially appropriate behaviors, referral to community organizations that teach strategies in the reduction of aggressive behaviors and/or referral for a special education evaluation.

PARENT-TEACHER ADVISORY COMMITTEE

The district has established a parent-teacher advisory committee to assist in the development of student guidelines and policies concerning discipline and administering medication in schools.

School officials will discipline students who do not conduct themselves in accordance with school rules and regulations and/or hinder the learning process for other pupils. Depending on the nature and severity of the events, school officials may request the assistance of law enforcement agencies. Section 10-22.6 of the School Code of Illinois (105 ILCS 5/10-22.6) gives the board of education the power to suspend or expel a student "guilty of gross disobedience or misconduct." It permits the board to authorize the building administrator to suspend students for a period not to exceed ten (10) school days for acts of gross disobedience or misconduct. The board may expel a student for more than ten (10) school days and up to two calendar years. Any student who is

School officials may search a student's person and/or personal effects in the student's possession (such as purses, wallets, coats, knapsacks, book bags, lunch boxes, etc.) when there is a reasonable ground for suspecting that the search will produce evidence that the student has violated or is violating either the law or the district's student conduct rules. The search itself must be conducted in a manner which is reasonably related to its objective and not excessively intrusive in light of the age and sex of the student and the nature of the infraction.

When feasible, the search shall be conducted as follows:

- 1. outside the view of others, including students;
- 2. in the presence of a school administrator or adult witness; and

- 3. by a certified employee or liaison police officer of the same sex as the student.

Following a search, a written report shall be prepared by the school authority who conducted the search and the report shall be delivered to the superintendent. The student's parent(s) / guardian(s) shall be notified of the search. If a search produces evidence a student has violated or is violating either the law or the school district's policies or rules, such evidence may be seized and impounded by school authorities, and disciplinary action may be taken. When appropriate, such evidence may be transferred to law enforcement authorities.

POLICE INTERVIEWS AND INTERVENTION

The school district maintains records for each student which reflect compliance with the examinations and immunizations prescribed by Section 27-8 of the School Code (105 ILCS 5/27-8) and the applicable rules and regulations of the Illinois Department of Public Health. The district shall exclude any student from school for failure to meet health examination and immunization requirements if such requirements are not met by the first day of the school year. Children whose parents or legal guardians object on religious grounds to immunization may be exempted from same upon providing to the superintendent a signed statement of religious objection which details the grounds for objection. A new statement for each child shall be presented prior to the opening day of each school year. If the physical condition of the child precludes immunization on medical grounds, an examining physician shall so indicate.

The school district requires that each parent or legal guardian of a child between the ages of six months through six years provide a statement from a physician or health care provider that the child has been screened for lead poisoning. This statement must be provided prior to the child's initial admission to school and subsequently in conjunction with required physical examinations. Each child shall present proof of examination prior to May 15th of the school year. The dental examinations must have been completed within 18 months of the May 15th deadline. If a child in 2nd or 6th grade fails to present proof by May 15th, the school may hold the child's report card until the child presents proof of

dental examination, presents a dental examination waiver form, presents an exemption based on religious grounds, or presents proof that dental examination will take place within 60 days after May 15th.

Exception to this is for those students possessing prescribed inhalers who may need to have his/her inhaler with him/her at all times. STUDENT RECORDS

The district recognizes the right of parents, and under certain conditions students, to examine student records. The procedure for examination of records is set forth in school district policy. A policy manual is available in the unit office.

STUDENT RECORDS-MAINTENANCE

In compliance with state and federal law, the District shall maintain two sets of student records. These shall be: 1) a permanent record which shall include: basic identifying information, academic transcripts, attendance records, accident/health reports, and information pertaining to release of this record. Additionally the permanent record may include: honors/awards and activities/athletics. No other information shall be placed in the permanent record. The permanent record shall be maintained for a least sixty (60) years after the student has graduated, withdrawn, or transferred from the District. 2) A temporary record, which may include: family background, intelligence/aptitude scores, achievement test results, psychological reports, honors/awards, athletics/activities, disciplinary information, teacher anecdotal records, special education files, information pertaining to release of this record, and other relevant information not required to be in the permanent record. Information in this record shall reference authorship and date. Temporary records shall be reviewed at least every four (4) years, or upon a student's change in attendance centers, whichever occurs first, to verify entries and correct inaccurate information. The District shall maintain the student's temporary record during the period of usefulness to the school and the student, but in no case longer than five (5) years after the student has transferred, graduated or permanently withdrawn from the District. However, the District may maintain indefinitely anonymous information for authorized research and planning. The Building Principal shall be responsible for the maintenance, retention or

destruction of a student's permanent or temporary records in accordance with the District's established procedure. No student record shall be destroyed unless the written approval of the appropriate Local Records Commission is first obtained. Prior to expunging and destroying students' permanent and temporary records, the District shall notify the students' parents/guardian and the student of its impending action. A thirty (30) day notice shall be given in the local newspaper, as well as a notice sent home with each student. The parents/guardian or student shall be given the opportunity, within the thirty (30) day period, to copy the record and information proposed to be destroyed or deleted.

In the case of the handicapped student who graduates or permanently withdraws from the District, temporary records which may be of continued assistance to the student may, after five (5) years, be transferred to the parents/guardians or to the student, if the student has succeeded to the rights of the parents/guardians. The content of the transferred records may relate to the diagnosis and remediation of the student's handicapping condition. An explanation of the usefulness of the records may be given to the parents/guardians or student by the District's appropriate student personnel services worker. The Superintendent shall be responsible for designating a records custodian who shall maintain student permanent records.

STUDENT RECORDS- ACCESS

The parents/guardian of a child under eighteen (18) or a designee of the parents/guardian shall be entitled to inspect and copy information in the student's records. A student shall have the right to inspect and copy his or her school student permanent record. The District shall notify students and the parents/guardian of such rights upon the initial enrollment or transfer of a student to the District. In cases of divorce or separation, both parents shall have this right unless a court order indicates otherwise. The District may charge the actual cost, provided that the costs not exceed \$.35 per page, for copying information in the student's records. However, no individual shall be precluded from copying information because of financial hardship.

A request for access to the records shall be made in writing and directed to the Superintendent or

his/her designee. Access to the records shall be granted within fifteen (15) days of the District's receipt of such a request.

The parents/guardian or student shall be entitled to challenge the accuracy and/or relevancy of any information in the records except grades and to request a hearing pursuant thereto. The Superintendent shall be responsible for establishing appropriate procedures in accordance with State Board of Education Regulations on Student Records, 23 Ill. Adm. Code 375.90.

Before destroying or deleting information in the records, the Superintendent or his/her designee shall notify the parents/guardian and student and shall provide an opportunity for the parents/guardian or student to copy such information.

The District shall grant access to information included in student records to persons authorized or required by state or federal law, provided that:

1. the person submit to the District appropriate identification and a copy of the authorization papers;
2. the parents/guardian receive prior written notification of the nature and substance of the information to be released. The parents/guardian shall be given the opportunity to inspect, copy and/or challenge the information. When the release of information relates to more than 25 students, the District may give prior notice through a local newspaper of general publication.

Other persons who request access to the records shall be denied access unless prior written consent is received from the parent or student except that the District shall grant access:

1. to another District to which the student has transferred. In such cases the District shall give prior notice and an opportunity to the parent and student to inspect and challenge the information to be transferred;
2. pursuant to a court order. In such cases, the District shall notify the parents/guardian and student of the release of such information;
3. to an employee of the District or an employee or official of the State Board of Education with a current and demonstrable educational or administrative interest;
4. for research, if the superintendent's permission has been given and no student or parent can be identified from the information released and the

individual seeking information signs an affidavit agreeing to comply with all applicable statutes and rules pertaining to school student records.

In case of emergency, to protect the health or safety of the student and others and within the regulations of the State Board of Education, student records or information contained therein may be released. Under emergency circumstances, the District shall consider the seriousness of the threat, the need of records to meet the emergency, the ability of the person seeking the records to meet the emergency and the importance of acting quickly.

REPLACEMENT OF LOST OR DAMAGED TEXTBOOKS

At the beginning of the school year, students are loaned textbooks. Teachers shall assess the condition of the books before they are issued for student use each year and again at the end of the school year. Textbooks are the property of the school district. A student shall be eligible for a fee waiver when at least one of the following prerequisites is met:

1. Send a note to the teacher at least one day prior to the appointment

AND

This dual notification will insure homework from the classroom is ready and that the absence is properly recorded in the attendance records. Without this prior notification, students will remain in class until the current class session concludes. This will minimize disruption of instructional time in the classroom and allow the classroom teacher an opportunity to gather the necessary homework after instruction has concluded. An approved pre-arranged absence preserves the student's eligibility to participate in extra-curricular activities that evening.

SCHOOL GUESTS

School guests shall report to the office when entering the school building. A student who desires to have a guest at school shall obtain the prior approval of the building principal. CAR RIDERS

Parents should drop off students at the EAST door between 7:45 and 8:00.

E.I.A.S.E. services are also available in: psychology, social work, auditory concerns, physical therapy, visual impairment, hearing impairment, vocational education, Braille, early childhood, as well as programs for the severely/multiple handicapped and severely behaviorally disordered. The school district is also a member of the Central Association of Special Education that is located in Decatur. This agency provides services in auditory testing and consulting services to programs for the deaf and physically handicapped. The school district provides an intensive screening program in the spring for all children ages 3-5 as a method of identifying children that may have difficulty in school. Testing for hearing, vision, speech, motor and learning problems is performed. Before any child becomes eligible for a special education program, a case study evaluation must be completed. Parents,

teachers, administrators, persons having primary care and custody of the child, the Illinois State Board of Education and community service agencies may refer any child for such an evaluation. Prior to a case study evaluation, the parent or guardian shall be notified in writing of the procedures involved and a signed consent will be requested.

LETTER TO PARENT(S) / GUARDIANS REGARDING STUDENT USE OF THE INTERNET

Dear Parent(s) / Guardian(s),

We have the ability to enhance your child's education through the use of the internet. The internet offers vast, diverse, and unique resources. The District's goal in providing this service is to promote educational excellence by facilitating resource sharing, innovation, and communication. *Your authorization is needed before your child may use this resource.*

The internet electronically connects thousands of computers throughout the world and millions of individual subscribers. Students and teachers may have access to:

- Limited electronic mail communications with people all over the world;
- Information from government source, research institutions, and other sources;
- Discussion groups;
- Many libraries, including the catalog to the Library of Congress, and the Educational Resources Information Clearinghouses (ERIC).

With this educational opportunity also comes responsibility. You and your child should read the enclosed *Authorization for Internet Access* and discuss it together. The use of inappropriate material or language, or violation of copyright laws, may result in the loss of the privilege to use this resource.

The Edgar County Community Unit School District #6 takes precautions to prevent access to materials that may be defamatory, inaccurate, offensive, or otherwise inappropriate in the school setting. On an unregulated network, however, it is impossible to control all material and a user may discover inappropriate material. Ultimately, parent(s) / guardian(s) are responsible for setting and

conveying the standards that their child or ward should follow. To that end, the Edgar County CUSD#6 supports and respects each family's right to decide whether or not to authorize internet access. Please read and discuss the *Authorization for Internet Access* with your child.

Parents are given a "Parental Authorization Form for Internet Access" to sign during student registration in August of each school year. This form gives the parent/guardian two choices:

1. I give parental permission
2. I do not give parental permission.
